DETAILED ACTION
EXAMINER'S AMENDMENT ✓

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 17-39.

Allowable Subject Matter

Claims 1, 3-16 are allowed.

The following is an examiner's statement of reasons for allowance: ✓

Applicant's admitted prior art teaches a saturated supercritical solution as well known in the art. However, Kuo fails to teach nor suggest a "saturated" solution as claimed by the Applicant; rather Kuo teaches the use of diluents. Consequently, prior art of record fails to teach nor suggest the combination of a saturated supercritical solution in combination with the limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
